PROGRAM: Grandparents Protective Society presented by Cleve Loney and John. Cleve started with Child Protective to help stop child abuse. This led to having to contact parents and grandparents for permission to investigate and gather information. After much stonewalling, Cleve found that grandparents have no rights when it comes to protecting these children. He has been fighting for the rights of children, parents and grandparents for years. Cleve has a plan to get the system in order to eliminate falsifying records and actually get the children the protection they need. Grandparents are generally the closest kinship for these children to go to when the child is taken from the parents.
